

# Whitening Menu

## #1 TRESWHITE \$75.00

On the Go - Opalescence Treswhite Supreme whitens your smile on the go via pre-filled, disposable trays. Available in Mint, Melon or Peach flavors, Opalescence Treswhite Supreme is effective, easy to use and features PF for reduced sensitivity and cavity-control. It is available in 15% or 10% hydrogen peroxide formulations, with wear times ranging from 15-60 minutes.

## #2 Opalescence “Whitening Program” \$200.00

Take Home – Opalescence Take Home Whitening Gel offers sustained whitening power in the comfort of your own home. Available in Mint, Melon and regular flavors, Opalescence Take Home Whitening Gel is delivered via custom-made trays, further tailoring the treatment to your smile. It features PF for reduced sensitivity and cavity-control, and is available in formulations of 10%, 15%, 20% and 35% carbamide peroxide, with wear-times ranging from 30 minutes to overnight.

## #3 BOOST \$450.00

In Office – Opalescence Boost, a 38% hydrogen peroxide power bleaching gel, offers brighter, whiter teeth after just one hour in the dental chair. Opalescence Boost is chemically activated, so it starts working as soon as it is placed on your teeth, and doesn't require a hot, uncomfortable light for efficacy. A safe, dentist supervised procedure, Opalescence Boost is the ideal choice for in-office tooth whitening.
